SUMMARY

Third-year B.Tech student in Artificial Intelligence & Machine Learning (CGPA 8.99/10) who has built and deployed six AI/ML projects, including agentic AI systems using LangGraph, RAG and LLM APIs. Strong foundation in Python, Flask, Next.js and Data Structures & Algorithms (70+ LeetCode problems). Seeking a Generative AI, AI/ML or Software Engineering internship.

EXPERIENCE

Artificial Intelligence Intern (Virtual) — CodeAlpha | 1 October 2026 – 30 October 2026

- Completed a one-month remote AI internship program; received a Letter of Recommendation from CodeAlpha.

EDUCATION

Delhi Technical Campus (GGSIPU), Delhi — B.Tech, Artificial Intelligence & Machine Learning | 2024 – 2028
CGPA: 8.99/10 (semester-wise: 8.2, 8.8, 9.2, 9.6)

Sarvodaya Kanya Vidyalaya (CBSE), Delhi — Class XII | 89% | 2024

TECHNICAL SKILLS

Languages: Python, SQL, TypeScript, JavaScript, HTML, CSS
Generative AI & Agentic AI: LLM integration (Groq API), LangGraph, ReAct agents, Retrieval-Augmented Generation (RAG), ChromaDB, Sentence-Transformers, structured outputs (Pydantic), LLM-as-judge evaluation, prompt engineering
Machine Learning & NLP: Scikit-learn, Pandas, NumPy, Random Forest, SVM, Logistic Regression, ensemble methods, TF-IDF, sentiment analysis (TextBlob), feature engineering, model evaluation, Deep Learning fundamentals
Backend, Frontend & Tools: Flask, REST APIs, Supabase Auth, PostgreSQL, SQLite, Docker, Next.js, React, Git, Jupyter, Vercel, Render, Hugging Face Spaces, FFmpeg
Computer Science: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

AI Study Companion — Agentic RAG Study Assistant
Python, Flask, LangGraph, Groq API, ChromaDB, Sentence-Transformers, Pydantic, SQLite, Docker | github.com/heena-jindal/AI_study_Companion

- Built a six-stage LLM backend, progressing from a plain explain endpoint to a LangGraph ReAct agent with tool calling that answers questions from course material.
- Implemented a RAG pipeline (Sentence-Transformers embeddings, ChromaDB vector store) to ground answers in uploaded material and reduce hallucination.
- Added an LLM-as-judge evaluator that scores answer faithfulness to retrieved context; containerised with Docker and deployed on Render.

AI Study Video Generator — Multi-Agent Explainer Video Pipeline
Python, LangGraph, Groq, Piper TTS, Manim, FFmpeg, Flask, Next.js, SQLite, Docker | github.com/heena-jindal/ai-study-video-generator | ai-study-video-generator.vercel.app

- Designed a four-agent LangGraph pipeline (planner, narration, visual, assembler) that turns a learning topic into a complete narrated explainer video.
- Built an LLM lesson planner producing a 3-6 shot flow, local Piper TTS narration, and Manim animations synchronised to measured audio duration.

MetroVerse — AI-Powered Smart Metro Navigation Platform
Python, Flask, Next.js, PostgreSQL, Supabase, Groq API (LLM), GTFS | metro-verse.vercel.app | github.com/heena-jindal/MetroVerse

- Engineered a full-stack navigation platform covering 262 Delhi Metro stations across 11 lines, modelling the network as a weighted graph and implementing Dijkstra's algorithm for shortest-path routing.
- Integrated a Groq-hosted LLM assistant with session memory and a Random Forest crowd-prediction model, backed by 8+ custom REST API endpoints.

Smart College Assistant — AI-Powered Campus Management System
Python, Flask, Next.js, TypeScript, Scikit-learn, SQLite | github.com/heena-jindal/smart-college-assistant

- Developed a bilingual Hindi/English NLP chatbot trained on 500+ question-answer pairs using TF-IDF and a Voting Classifier (SVM, Logistic Regression, Random Forest).
- Co-authored a research paper on the project's methodology, currently under review for book-chapter publication.

Additional: VibeVerse (sentiment-based wellness app, Flask/Next.js/Spotify API); Fake Certificate Detection (Random Forest, 34,000+ records, 84% accuracy); House Price Prediction (Linear Regression, Decision Tree, Random Forest).

CERTIFICATIONS

CodeAlpha Virtual Internship in Artificial Intelligence | Tata GenAI Powered Data Analytics Job Simulation (Forage) | Data to Web Bootcamp (Power BI & Flask)

LEADERSHIP & ACHIEVEMENTS

- Social Media Head, ACE DTC (2025 – Present); SIH 2025 and Manthan Kriti 2024 participant; 70+ LeetCode problems solved; 8+ public GitHub repositories.
